Price list for CADMAI / WebGL-Publisher / Poi3d.com modules from 1.03.2024

(All Prices are based on one time payments in EURO excl. VAT)

Available CADMAI modules

End user modules	Filename (s)	Description	User license
CADMAI CAD	CmiNativeUI.exe, CmiDotNetUI.exe	Enables the user to create CADMAI models interactively	SingleCamaiLic
Client Server	CmiService.exe CmiServerSession.exe CmiTestClient.exe	Enables the user to set up a CADMAI Server for remote access via the Connect API.	SingleCmiServerLic
Integrator modules	**Dateiname (n)**	**Description**	**Bulk license**
CmiWindows API	CmiWindow.dll, CmiWindowDotNet.dll	Enables the user to integrate one or more CADMAI windows in applications and to open CADMAI models, create, steer and access CADMAI entities out of the application. This module includes the complete functionality of the CADMAI CAD module and can also be used for creating CAD applications with individual functionality and brand names	BulkCmiWinApiLic
Controls	CmiActiveXControl.dll, CmiDotNetControl.dll npCmiBrowserPlugin.dll CmiWpfControl.dll	Enables the user to integrate a CADMAI Control in dialog based applications or web browsers and to open CADMAI models, create and steer CADMAI entities out of the hosting dialog. This module includes measurement and export functionality.	BulkCmiControlLic

Available WebGL-Publisher modules

End user modules	Description	Einzellizenz
WegGl-Publisher	WebGL-Publisher is used for publishing geometric 2D and 3D data in the Web. The published geometry can be viewed in any WebGL enabled browser without additional software installation.. The WebGL-Publisher license contains the permission to publish the needed infrastructure (JavaScript libraries and textures) in the Web as long as the possessor of the web site where the WebGL-Publisher model is published is the owner of the WebGL-Publisher license. The software can be used for non-commercial use without a license.	SingleWebGlPubLic
WegGl-Publisher Produkt-Konfiguration Lizenz	The product configuration in WebGL-Publisher is used for building and configuring assemblies out of components without a server implementation. The following features are enabled: • Assemblies can be created out of partial models • The components can be loaded in an asynchronous way • No server implementation for steering the models necessary • The 3D data can be constrained with different shades, colors or materials Local accesses and accesses via localhost can be used without a license	SingleWebGlProdConfigLic
JT® nach WebGL-Publisher® Konverter	Converts JT® files into WebGL-Publisher® format including the web infrastructure. The application can also run in batch mode.	SingleWebGlJtExportLic
3DXML nach WebGL-Publisher® Konverter	Converts 3DXML files into WebGL-Publisher® format including the web infrastructure. The application can also run in batch mode.	SingleWebGl3DXmlExportLic
STEP nach WebGL-Publisher® Konverter	Converts Step files into WebGL-Publisher® format including the web infrastructure. The application can also run in batch mode.	SingleWebGlStepExportLic
WebGL-Publisher Export für Autodesk® Revit®	WebGL-Publisher Export for Autodesk® Revit® is an AddIn for Autodesk's Revit® Software. It is used to export architecture models into a 3D environment for the Web.	SingleWebGlRevitExportLic
WebGL-Publisher Export für Autodesk® Inventor	WebGL-Publisher Export for Autodesk® Inventor® is an AddIn for Autodesk's Inventor® Software. It is used to export CAD models into a 3D environment for the Web	SingleWebGlInventorExportLic

Available Poi3d.com License

End user licenses	Description	License-Name
Author rights per month	The acquisition of author rights allows the registered user to • Upload/manage documents and 3d models • Define and manage work groups • Invite users to work groups • Define instructions The license includes temporary WPM converter licenses for the purchased period of time	Poi3dAuthorLic
